PHARMA**

SHIPPED PHARMA

WHEN SAFEGUARDING PHARMACEUTICALS
IS OUR MISSION.

YOUR MISSION. OUR COMMITMENT.

Shipped Pharma is our special cargo product built for healthcare and pharmaceutical logistics, offering maximum protection for temperature-sensitive pharmaceutical shipments.

From origin to destination, we follow strict cold chain procedures based on CEIV Pharma, WHO, and GDP standards.

Why Choose Shipped Pharma?

- Audited and certified CEIV Pharma network
- Dedicated Pharma Control Tower
- Priority handling, minimum apron time
- Fully trained personnel & audited facilities
- Over 100+ approved electronic monitoring devices

At MSC Air Cargo, quality and our customers are at the heart of everything we do. Every Shipped Pharma journey is a promise delivered. We aim to become a trusted link in your healthcare supply chain.

Delivered as Promised. Every Time. We believe in reliability, responsibility, and resilience. With our CEIV Pharma network, temperature-controlled infrastructure, and dedicated teams across continents, your cargo is never alone.

Moving health forward. We are with you - every step of the way.

SPECIALIZED SERVICES.

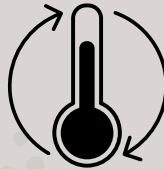

At MSC Air Cargo, we understand that not all pharmaceutical shipments are created equal. That's why **Shipped Pharma** offers a range specialized services, designed to meet the precise needs of your cargo, from vaccines to ambient healthcare supplies.

CLOSED COLD CHAIN

For products requiring the highest level of temperature stability, we offer a closed cold chain solution using active container and hybrid and passive packaging units. Ideal for vaccines, monoclonal antibodies, and clinical trial materials.

TEMPERATURE CONTROLLED

For shipments requiring regulated temperature ranges, we offer robust cold chain management across our approved Pharma network. This includes COL, CRT, ERT, and FRO shipments. Suitable for insulin, over-the-counter meds, biologics.

NON-TEMPERATURE CONTROLLED

For pharmaceuticals and healthcare products that do not require temperature control, we still apply our pharma-grade standards to ensure product integrity, security, and compliance. Great for medical devices and packaging materials.

FROM THE CONVENIENCE OF YOUR WAREHOUSE.

For added convenience and control, **we are offering pick-up and delivery** at selected locations. Whether you're shipping from your warehouse or delivering directly to your consignee, our extended reach ensures a seamless cold chain from origin to final destination, maintaining full compliance and temperature control throughout the transportation.

PRECISION HANDLING FOR EVERY SCENARIO.

This table outlines our specialized handling options and corresponding SHCs, ensuring each shipment receives the exact level of care it requires.

TEMPERATURE	SPECIAL HANDLING CODES
Active	PIL, ACT*** or PIL, ACI**
0 - -18°C	PIL, FRO
2 - 8°C	PIL, COL +(PIP)*
2 - 25°C	PIL, ERT +(PIP)*
15 - 25°C	PIL, CRT +(PIP)*
Ambient	PIL +(PIP)*

** PIP to be used for passive/hybrid packaging units*

*** ACI to be used for active container dry ice*

**** ACT to be used for active container electric*
