SHIPPED SPECIAL SOLUTIONS

WHEN UNIQUE CARGO DEMANDS
SPECIAL SOLUTIONS.

YOUR REQUIREMENT. OUR EXPERTISE.

Shipped Special Solutions is our dedicated cargo product for complex shipments such as luxury vehicles and civil aircraft engines.

With customized procedures, certified ground support, and engineering-grade care, we ensure every shipment is handled with safety, precision, and full compliance – from acceptance to final delivery.

Why Choose Shipped Special Solutions?

- Dedicated product variations for vehicles and engines
- Certified GHA equipment and trained loadmasters
- Ramp supervision and full documentation
- EXW pick-up and DDX delivery available at select stations

At MSC Air Cargo, quality and our customers are at the heart of everything we do. Every Shipped Special Solutions movement is a project in itself - carefully planned, securely executed, and expertly monitored.

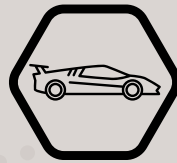

Delivered as Promised. Every Time. We are your trusted partner for cargo that doesn't fit the standard. With certified processes, specialized handling tools, and full route control, we ensure your valuable cargo arrives intact, on time, and ready to perform.

Precision Delivered. We are with you - every step of the way.

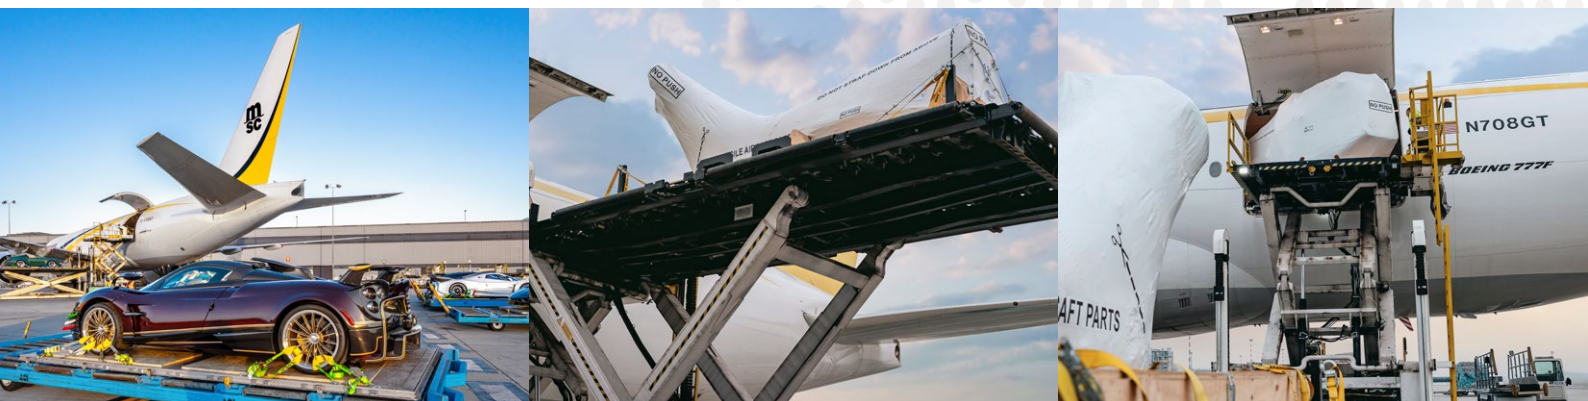

SPECIALIZED VEHICLE.

From supercars and electric vehicles to prototypes, we provide tailored solutions for transporting your vehicles.

WHAT WE OFFER:

- Four-angle photo documentation at handover
- Trained GHA personnel and secured storage areas
- EV and hybrid vehicle DG SHC expertise
- EXW pick-up and DDX delivery (where supported)
- No co-loading policy for uncrated units

CIVIL AIRCRAFT ENGINES.

Your engines are mission-critical. That's why Shipped Special Solutions - Engines follows strict compliance and engineering-based protocols for every shipment.

WHAT WE OFFER:

- Engine acceptance with 4-angle photos
- Compliance from the start. Engine Compliance Letter verification prior to uplift
- Purpose-built transport, no co-load policy and dedicated handling zones
- Damage prevention by design. Each engine is visually inspected and photographed at each step, and our trained teams follow specific guidelines to protect the engine
- AOG uplift prioritization when marked "ENG, AOG"
