

**MSC AIR CARGO - FUEL SURCHARGE
SEPTEMBER 25TH 2026**

Dear Customer,

The MSC Jet Fuel Index closed at 189 yesterday, September 10th, consequently the fuel surcharge communicated **today September 11th**, 2026, is set as per flight date and equivalent currency on the basis of point of country sale:

- **\$1.60 or €1.60** per chargeable kilogram, applicable **from 11th September 2026** and until **24th September 2026**.
- **\$1.70 or €1.70** per chargeable kilogram, applicable **from 25th September 2026** and until further notice.

The MSC Jet fuel Index is based on public information from the U.S Energy Information Administration (E.I.A).

The fuel surcharge is set by ranges of \$0.10/€0.10 every 5 base points up or down on the index applicable during the period. If the index goes below 100, the fuel surcharge will be nil.

Any adjustment to the fuel surcharge (increase or decrease) will be communicated 15 days prior to implementation.

Below is the fuel surcharge table depending on the evolution of the MSC Air Cargo Jet fuel index in USD and in EUR.
