

## A COMPREHENSIVE SOLUTION FOR **SEAMLESS CARGO OPERATIONS**

MSC's advanced fumigation service in Rotterdam integrates seamlessly with our carrier haulage offering to ensure your cargo moves efficiently through the supply chain to its final destination. Whether you drop off your container at our depots or opt for collection via our carrier haulage service, we help save you time and streamline operations every step of the way.

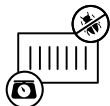

### END-TO-END SOLUTIONS

Optimize transit times across Europe and beyond by integrating our fumigation services in the Netherlands with MSC's global connectivity and inland network.

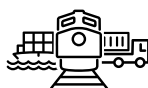

For shipments destined for Australia and New Zealand, the treatment of BMSB (Brown Marmorated Stink Bug) is mandatory from September to April. This specialized service is available exclusively for carrier haulage bookings and ensures your shipments comply seamlessly with the latest regulations.

#### SPECIALIZED SERVICES

A comprehensive, **all-in-one cargo fumigation solution**, combined with carrier haulage, streamlines your **supply chain** and **saves time**.

#### INTERMODAL SOLUTIONS

Delivering efficient, **door-to-door logistics** through our **robust inland connections**.

#### LOCAL EXPERTISE, GLOBAL REACH

Tailored customer service, proactive communication, and **continuous support** ensure a **seamless experience** for our customers.
