INTRODUCTION TO MSC DIGITAL SOLUTIONS

MSC DIGITAL SOLUTIONS

At MSC, we believe that digitalisation also has the power to make shipping safer, more efficient and more sustainable. We are continuously investing in the development of new digital tools and technologies to provide customers with easy-to-use, flexible and reliable online shipping management solutions. But, that's not all. MSC is also a driving force in the standardisation of technology across our industry. Our solutions provide full visibility and control of your end-to-end shipping experience, securely facilitating digital transactions without losing MSC's personal touch.

MYMSC - ANY DEVICE, ANY TIME

MSC is continually enhancing myMSC, our secure eBusiness platform which provides you with 24/7 real-time access to your freight information.

myMSC is accessible on any device through MSC.com or the myMSC App, at any time.
You will have access to the following key functionalities and more:

INSTANT QUOTE

- Get a Spot Quotation within seconds, 24/7
- Submit your booking in minutes
- Quotes available from and to door, ramp and port
- Dry and Reefer equipment

DOCUMENTS

Retrieve:
- Booking confirmations
- Non-negotiable BL
- Arrival notices
- Invoices, copies
- AMS declaration status, import delivery order (for USA)
- Draft BL

SOLAS VGM

- VGM submission by booking or BL number
- Single or bulk VGM submission using the MS Excel upload option
- History retrieval of submitted VGMs by booking, BL or container number
- Tare weight search for MSC-operated containers

eBUSINESS

- eBookings
- eShipping Instructions
- Draft BL approval & amendments

DASHBOARD

- Overview of current shipments
- Status of Instant Quotes, eBooking, eShipping instructions and more
- Notification of events as per user preferences

TRACKING & VESSEL INFORMATION

- Track shipments by BL, booking or container number
- Vessel schedules and cut-offs*
(by booking, port or rail ramp)
- Vessel exchange rates per vessel/voyage
- Customs Release Status (for USA, Canada and Germany only)

*Note: this option varies from country to country.

MSC INSTANT QUOTE: READY, STEADY, QUOTE

Only available on myMSC, our Instant Quote feature provides a real-time quote for any shipment, including door-to-door deliveries. Simply tell us the pick-up point and destination, then leave the rest to us.

KEY BENEFITS
- **Finalise your booking when it suits you:** save your quote now, book later
- **Free choice of booking channel:** you can use the quote reference of 'Instant Quote' to book via your usual channel
- **Forward your quote for execution:** you can delegate the booking execution

Get a Spot Quotation within seconds, 24/7

FAST

QUICK BOOKING

Submit your booking on an IQ in minutes

Tell us the origin of the cargo and its destination, we do the rest

SIMPLE

LIVE

Enjoy a 24/7 live environment to adapt faster to market dynamics

Include ramp or door quotations at the same speed

END-TO-END

TIME-SAVER

Better plan your supply chain instead of losing time on quotes and paper bookings

MSC DRAFT BL: REVIEW IT, APPROVE IT, SEND IT

You can now enjoy full online management of your draft BL.

How it works:

1   Send your Shipping Instructions as usual, via EDI, myMSC, INTTRA, GT Nexus, Cargo Smart or by email to an MSC agent.

2   Our agent will review the Shipping Instructions and create the draft BL, which will be sent to you by email, with a PDF attachment and a link to our draft BL on the myMSC platform.

3   Open the link, preview the draft BL, make any necessary updates or corrections, save it for later, share it with someone else, or simply approve it. To do this, you do not need to pre-register on myMSC.

4   Once approved, the MSC agent will proceed with the release of your BL.

KEY BENEFITS

24/7 AVAILABILITY
Online platform
accessible
from any device

TIME-SAVING
Less manual work,
emails, phone calls

DATA ACCURACY
No misinterpretations
(due to multiple
handwritten instructions)

SELF-SERVICE

amendments
online

TRACEABILITY
Online history
of amendments

MSC eBL: WE MAKE IT SIMPLE

Offered via Wave BL platform, MSC eBL is our digital solution for processing the Bill of Lading (BL). This secure, user-friendly solution helps you – and your business partners – to save time, reduce costs and offers a more efficient, secure and sustainable digital alternative.

3X FEWER **PROCESSING** COSTS

4$ REDUCE COSTS UP TO AN ESTIMATED **BILLION PER YEAR** with a 50% industry adoption rate by 2030

source: https://dcsa.org/standards/bill-of-lading

FASTER
• Documents transferred in minutes, instead of weeks
• Accelerated payment times

SAFER
• Secured and encrypted by blockchain technology
• Automatic verification and authentication
• Increased security for your documentation: no risk of BL loss (no more costs of insurance/guarantee), forgery or fraud

GREENER
• Paperless process
• Reduced carbon footprint

COST-EFFICIENT
• No courier fees to send your documents multiple times (e.g. for modifications, updates, etc.)
• Avoid additional costs as the documentation will be ready before your containers reach their destination

SIMPLER
• User-friendly platform
• Accessible from any device or location, 24/7
• Online training session available
• No change to the booking and shipping instructions process (after your draft validation, you receive your MSC eBL)

SMART CONTAINERS: FOR A SMARTER SUPPLY CHAIN

We know that being able to track and monitor your shipment remotely helps you to plan ahead. That's why we offer smart containers for all types of dry cargo. Dry units equipped with internet-connected devices that collect data such as position, temperature, door openings and shocks in real-time-helping you to make the right decisions at the right moment. With Smart Containers we enable a smarter supply chain with 24/7 visibility and real-time monitoring.

CONNECT
Benefit from **real time visibility** of your cargo from door to door.

PROTECT
Receive **alerts** in case of unexpected events. Improve your **cargo security**.

CARE
Tailor the solution to meet your supply chain needs. Focus on **exception management**.

IMPROVE
Anticipate whereabouts and quality of your goods through **digitalisation**. Gain in **supply chain efficiency**.

DIRECT INTEGRATIONS: MANAGE MSC SHIPMENTS
FROM YOUR EXISTING SYSTEM USING OUR API AND EDI SOLUTIONS

MSC Direct Integrations deliver seamless digital exchange of business data, improving on efficiency and mitigating risk of errors caused by repetitive manual data entry. Available MSC's API and EDI securely connect our system to yours. Get to know how MSC's Integration catalogue can support your digital transformation journey.
