

ALTERNATIVE ROUTE FROM ASIA TO EUROPE

MSC's new Asia-to-Europe multimodal solution enables an alternative route from Asia to Europe for shippers moving cargo from east to west compared to the traditional all ocean route via Suez.

This new offer, MSC's Taiga Service, combines both sea and rail service departing from China, Korea and Japan to Europe, via Vladivostok and Vostochniy with further feeder connections from St. Petersburg.

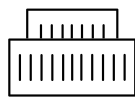

From St. Petersburg, cargoes can be shipped directly to some of the major European hubs such as Antwerp, Bremerhaven, Rotterdam, and Le Havre through our European feeder network offering an extensive coverage of ports and inland connections in the continent.

KEY BENEFITS

Alternative route from Asia to Europe

Flexible capacity of our Taiga service

Secure transportation solutions

Fast and reliable door-to-door intermodal services

Global Network
