MSC SUSTAINABILITY ENGAGEMENT

ENABLING SUSTAINABLE SUPPLY CHAINS

MSC’s strong core values are reflected by our long term commitment to sustainable development. We are ambitious and take pride in delivering on our commitments, collaborating with our partners to create shared value and to ensure sustainable supply chains. At MSC, we regard sustainability as a strategic imperative and, above all, a business priority.

As an active participant of the United Nations Global Compact our ambition goes above and beyond compliance as we integrate sustainability in all aspects of our day-to-day operations.

OUR PURPOSE

We connect the world, fostering inclusive social prosperity and economic growth, whilst respecting and nurturing the home we all share - our blue planet.

MSC’s sustainability roadmap is fully aligned with the SDGs and the UN Global Compact’s Ten Principles, creating value throughout our global operations. By intensifying our efforts to address climate challenges, MSC is enabling logistics decarbonisation by working towards carbon neutrality, supporting logistics transitional solutions as well as maintaining our ongoing focus on energy efficiency. We connect the world, fostering inclusive trade by securing organic growth and generating value among the local economies and societies that we serve. Addressing social challenges is at the heart of MSC’s business, as we maintain our unwavering focus on people and on related social issues around human rights, diversity and inclusion.

OUT-OF GAUGE CARGO

Shipping out-of-gauge cargo with MSC:

- Our out-of-gauge service is fully integrated throughout our business, making it simple for you to get expert advice from our shipping specialists.
- Our experts assure you of a tailor-made solution for a safe and secure delivery.

We aim to exceed your expectations:

- With global experience and world knowledge in shipping oversize freight, we help you with planning and execution of special loadings. Our experts deliver tailor-made solutions ensuring a safe and secure handling of your cargo.

BREAKBULK CARGO

Shipping breakbulk cargo with MSC:

- Our team is focused on loss and claim prevention, enabling a safe and smooth delivery from the moment of receipt to the final destination.
- On board vessels, your cargo will be stowed on a pre-prepared bed containing multiple flat-racks, thus providing a safe working environment for stevedores and ensuring maximum lashing opportunities in accordance with IMO CSS Code Annex 13 requirements.
- As part of our flexibility and preparation, 3D modeling is used to demonstrate handling through all environments.

At MSC, dedicated teams of experts in project cargo have been taking care of your oversized freight for over 40 years in multiple locations across the globe. Our trade service teams are extensively trained and offer destination-specific knowledge and support for your oversized cargo requiring special equipment such as platforms, open top containers or flat racks. Our extensive inventory of special equipment gives us the capability to transport large, heavy and irregular sized cargo.

We are committed to finding the best transport solution for your special cargo, whatever its dimensions, weight and destination.
