

EXPERTS IN THE TRANSPORTATION OF CHEMICALS AND PETROCHEMICALS

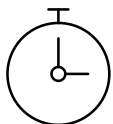

The U.S. is the first producer of resin in the world using natural gas and the third largest producer of plastic materials. As a matter of fact, the plastic industry is one of the largest manufacturing industries in the nation, with the USA ranking as one of the biggest exporters of primary forms of plastics worldwide.

At MSC, we understand the needs and requirements of this important industry, having established ourselves as market leaders in the transportation of resin in the U.S. We offer first-hand experience of local requirements and regulations regarding chemicals and are strongly committed to guaranteeing care, precision, and robust processes while meeting the highest international safety and environmental standards.

Our local network of experts will provide you with specialist customer support. Moreover, we offer the best transit times in the industry, ensuring your cargo is delivered safely and quickly.
